

GREEN LIGHT FOR INNOVATION?

**900 MILLION IN ONE YEAR, or just notionally in 2015?
IS THE WILL STRONGER THAN THE EXCUSE?**

Centraalpunt© Challenges the involved state company's and the government policy makers. They contribute a solution to reduce unemployment, increases economic growth and saves billions, without legislative changes. Internationally applicable.

(UWV) experts, some second chamber members, company's and unemployed are enthusiastic. But who really does something? Who pulls the cart? Whoever takes up the challenge? Who puts words into deeds before election?

Newspapers, TV and Radio - We invite you to hear our story and challenge policy makers to a multilateral discussion. A global solution that helps durable NOW and will also generate money. Who will help us to ventilate and realize our plan? At least a broadcast or press release that will create a stir, perhaps will warn voters, and will reach out or directly cut off a hand of the benevolent government of the Netherlands.

See you soon?

Melvin and Marcel van Rooijen

On behalf of the owners of companies group Centraalpunt, and as citizens of the Netherlands

UW?, IS THE WILL STRONGER THAN THE EXCUSE!

Where does the Question mark stands for?
